To whom it may concern: this is a letter of support for the proposed Power Plant in the town of Bowie . We here at the Bowie Fire Dist. feel that it will be a great asset to the town. We also feel that with out this plant the town will soon die out. It is the option of the members of the Bowie Fire Dist.& the people of this town that this Plant will help to save this town as well as help it to grow. The people from the plant have been more then forth coming about all the plains & needs they would have over the cores of the consternation and operation of the Plant. They have also been very forth coming about any and all ever mental & economic impacts it will have on the Town of Bowie and the people that live in here. They have been more then willing to meet with and answer any & all questions from all members of the community. We at the Bowie Fire Dist. Hope that you take all of this in to confederation when you make any dissection.
